SMART BADGE

Sleek, Smart and Multi-Functional.

The smart badge is a portable multi-mode tracker in ID card format with embedded sensors. Ideal for tracking, zone notification and monitoring of worker safety and security.

DESK OCCUPANCY
SENSOR

Ultra-Thin, Easy to Install and Long Battery Life.

Ultra-thin active IR occupancy sensor for smart offices and buildings. Monitors the desk occupancy rate by measuring objects and people within close range. Mounted invisibly or discreetly and is suitable for office applications such as hot-desking.

IoT MULTI-SENSOR

Wireless, Intelligent and Robust.

The most powerful indoor climate sensor for controlling and monitoring air quality, temperature, light, humidity, motion detection CO₂ levels etc.
