

Delivering Smart Technology Solutions for a Safer,  
Efficient and Comfortable Workplace

An End-to-End Solution including IoT Sensory Technology, Control  
Systems, Systems Integration and Applications:

### Safe Return to Work

Occupancy Heat Maps  
Contact Tracing  
Virus Mitigation

### Indoor & Outdoor Tracking

People & Asset Tracking  
Indoor Positioning & Wayfinding  
Mapping

### Booking

Room  
Desk  
EV Charging

### Smart Room Control

HVAC  
Lighting  
Indoor Air Quality

### Real Estate Optimisation & More...

SMART BADGE

#### Sleek, Smart and Multi-Functional.

The smart badge is a portable multi-mode tracker in ID card format with embedded sensors. Ideal for tracking, zone notification and monitoring of worker safety and security.

DESK OCCUPANCY  
SENSOR

#### Ultra-Thin, Easy to Install and Long Battery Life.

Ultra-thin active IR occupancy sensor for smart offices and buildings. Monitors the desk occupancy rate by measuring objects and people within close range. Mounted invisibly or discreetly and is suitable for office applications such as hot-desking.

IoT MULTI-SENSOR

#### Wireless, Intelligent and Robust.

The most powerful indoor climate sensor for controlling and monitoring air quality, temperature, light, humidity, motion detection CO2 levels etc.
